Our Mission

Homes 4 Homes builds safe housing for the world's most vulnerable families. These homes are given to immediately improve their health, safety, economic situation and dignity.

Our Approach

- COMMUNITIES ARE SELECTED
- CONSTRUCTION BEGINS WITH LOCAL LABOR AND LOCAL MATERIALS
- FAMILIES RECEIVE A SOLID BRICK HOME
- DONORS RECEIVE PROOF OF THEIR IMPACT

We're committed to making a long term impact in each community we serve. Consistent support has greatly improved the health, safety, stability, and economic impact of families. We also evaluate if additional community needs are left outstanding. When necessary, we seek partners to meet those needs.

The Story Of Beatrice

From the beginning, we had a dream to provide safe homes to families in Uganda. It all began when Beatrice signed papers to construct a home on her family's land. She was overwhelmed with emotion, and we were able to see immediately the significant impact these homes were going to have.

Since that time, you've given homes to over 1,300 families in 4 different countries, and the impact has extended far beyond what we ever imagined. As we enter Homes 4 Homes' 10th year of serving families in need, we want to thank you for making our work possible.

We have the highest hopes for these communities served. School attendance is increasing, health centers are seeing less disease and illness, and families are spending more time together. Our simple goal of providing a safe and secure home has produced results that extend far beyond that.

Thank you for trusting us with your gifts and graciously providing homes to so many families over the past 10 years. We've only just begun.

Mike Smalling, Co-Founder

The Ripple Effect

Meet 35-year-old Richard Ocen, a construction worker for H4H and member of Te-opok village. At just eight, he lost his father, an ordinary farmer, who was arrested and killed by LRA rebels. At 22, Richard married Nancy Apiyo and they began living in a grass-thatched hut. Termites, leaks, and thieves were constant worries, and they even endured their hut burning to the ground in a brushfire.

In October, Homes For Homes began constructing homes in Te-opok, Richard's village. Thanks to your generosity, his family has a brick home! They live securely, free from leaks and roof repairs. He's proud to be a living testament to the positive impact Homes 4 Homes brings to Northern Uganda, and he's determined to keep working, saving, and thriving. Your gifts have changed Richard's life and his family's future.

Richard digging a community latrine

For the past three years, Richard has been responsible for digging all of the latrine pits that are provided with each home in Northern Uganda. This income stability allowed him to begin saving and pay the annual school fees for his 3 children. He's also been able to purchase goats, cows, and chickens.

Thank You!

Because of you, families around the world are receiving quality homes and a better life. You're creating opportunities for jobs, better learning environments, and a more quality time. Communities and families are permanently changed because of your gifts.
